EDUCATION

Vellore Institute of Technology, Vellore, Tamil Nadu – B.Tech (CSE) – 2026, with 7.47 CGPA
VSPK International School, Rohini, Delhi – 12th – 2022, With 85%

EXPERIENCE

● Centre for Chronic Disease Control (CCDC), New Delhi – System Support Intern (June 2025 – July 2025)

Completed practical training as part of the IT support team at the Centre for Chronic Disease Control (CCDC). Worked on troubleshooting desktop- related technology issues for internal users and helped resolve software, network and hardware concerns. Set up and maintained workstations for new employees, ensuring smooth access to the organization's systems. Assisted in upgrading operating systems and responding to support queries, both on- site and remotely, with a focus on improving reliability and user experience. Gained hands-on exposure to IP addressing and core networking technologies, including TCP, UDP, DHCP and the setup of segmented networks. Also learned about Network Attached Storage (NAS), server configurations, both on-premises and cloud-based, and how data is managed, accessed and secured across different environments.

● MILESTONE (NGO), New Delhi – Volunteer (May 2025 – June 2025)

Contributed to community outreach initiatives focused on public health awareness and environmental sustainability. Participated in organizing and executing on-ground campaigns, awareness drives, and eco-friendly programs targeting local communities. Promoted sustainable development practices and collaborated with grassroots teams to create social impact through educational and health-focused activities.

● Centre for Railway Information Systems (CRIS), New Delhi – Web Development Intern (June 2024 – July 2024)

Completed practical training under the Freight Operations Information System (FOIS) division. Gained hands-on experience in full-stack development by building a website for Indian Railways using HTML, CSS, JavaScript and integrating backend services with Python Flask and SQL. Contributed to FOIS project modules focusing on operational efficiency and user accessibility.

TECHNICAL PROJECTS

● EV Market Segmentation (Completed)

Analyzed EV customer and sales data using Python. Applied K-Means clustering for segmentation and created visualizations with pandas and matplotlib to identify patterns in customer groups and regional trends.

● BharatFin – An Explainable Multimodal RAG Financial Assistant for Indian Retail Investors (On-going)

Designing and developing an AI-powered financial assistant integrating OCR-based portfolio extraction, retrieval-augmented generation, and real-time NSE/BSE market feeds. The project focuses on explainability, evidence-backed recommendations, and improving financial decision-making for Indian retail investors.

POSITIONS AND RESPONSIBILITIES

- Vice Chairperson of Innovation and Creation Club (Technical Club) at VIT.
- Advisory Member of Innovation and Creation Club (Technical Club) at VIT.
- Student Volunteer of graVITas'23 & RIVIERA'23 held at VIT.
- Event Coordinator of Coded Couture Clash which was conducted during graVITas'24 held at VIT.
- Event Coordinator of Techno-Quarrel which was conducted during Yantra 2024 held at VIT.
- Event Supervisor of MonopolyX which was conducted at VIT.
- Event Coordinator of BGVS which was conducted at VIT.

SKILLS

Programming & Frameworks: Python, Java, C, C++, Spring Boot

Data Structures & Algorithms: Arrays, Linked Lists, Stacks, Queues, Trees; Sorting/Search

Databases: MySQL, MongoDB

Big Data & Analytics: Big Data Analytics; pandas, NumPy; Power BI; Advanced Excel

Cloud & Networking: AWS (EC2, S3, IAM); Microsoft Services (Azure, M365, AD); Basic Networking, Network Security (protocols/admin exposure)

Operating Systems: Windows, Linux, macOS

IT Support & Tools: Desktop Troubleshooting, Remote Support, System Setup, Snipe-IT; Git, GitHub; Customer Support & Problem-Solving

AI/ML: ML Algorithms, Data Preprocessing, Model Building

Business & Analysis: Domain Knowledge – Basic Financial Markets/Trading; Requirements Gathering, Documentation & Validation; Wireframing & UI Collaboration (Figma, Canva)

Cybersecurity & Governance: Data Privacy, Information Security Awareness

Soft Skills: Client Interaction, Communication, Teamwork, Problem Solving, Leadership

PROFESSIONAL CERTIFICATIONS

JPMorgan Chase Investment Banking Job Simulation on Forage – July 2025

Power BI Advanced Certified Workshop by Skillnation

Getting Started with Power BI (2025)

Product Management

Root Cause Analysis: Getting to the Root of Business Problems

Business Development Foundations: Researching Market and Customer Needs
